

## Marble + Granite Composite Tiles

### Mable + Nature Granite Composite Tiles ( Laminated Tiles )

The Granite backing is usually of 17 mm thickness, and the marble is 3 mm thick. Anyway, we can produce in other sizes according to customers' requirement. This kind of Laminated tiles are much cheaper but stronger than ordinary marble tiles, because of the low price and strength of the grantie backing.

Product Feature - compared with common traditional tiles:

- 1) Better folding and shock resistance;
- 2) Better selection of the marble color;
- 3) Easy to be constructed and transported;
- 4) Lower prices and costs!

Sizes formats:

- A) 305 x 305mm
- B) 400 x 400mm
- C) 457 x 457mm
- D) 600 x 400mm
- E) 600 x 600mm
- F) 800 x 800mm

Application:

The marble + granite laminated tiles are suitable for flooring, interior & exterior wall cladding, desktop, countertop and so on. We strongly recommend this tiles for flooring!
